## Professional Summary

Passionate frontend developer with a strength for creating clean, user-friendly web experiences. Skilled in HTML, CSS, JavaScript, React.js, WordPress, and Elementor. Detail-oriented and driven to build websites that not only look great but work seamlessly.

## Skills

- **Languages** - C, C++, JavaScript, HTML, CSS
- **Library & Frameworks** - React.js, Tailwind CSS, GSAP, Framer Motion
- **Tools & Technology** - Git, GitHub, VS Code, WordPress, Elementor
- **Soft-Skills** - Quick learner, Adaptable across tools, Punctual and Reliable.

## Projects

- **TrackWise (Expense Tracker)** - Built a responsive expense tracker app using React.js, Firebase (Firestore & Authentication), and Tailwind CSS. Integrated PWA features, optimized SEO with a custom sitemap.xml, and deployed on Vercel for fast, scalable hosting. [https://trackwisee.vercel.app]

- **Ochi-UI** - Created an animated website using React.js and Tailwind CSS for styling.Used Locomotive for smooth scrolling and framer-motion for mini-animation to make it attractive. [https://ui-ochi.netlify.app]

- **Image Enhancer** - Developed a user-friendly web app that automatically sends uploaded images to an enhancement API, uses smart polling to check processing status, and displays the enhanced image with a built-in download option — all without requiring manual clicks.
